Birmingham, Ala., June 7.—The remaining half of delegates to the national democratic convention from Alabama, which Col. A. L. Tunstall, chairman of the central committee of the Underwood Campaign Committee of Alabama, has had under consideration for the past few weeks since receiving authority to name one-half of the delegation, was made public this afternoon.

The list will be submitted to Senator Underwood for his approval. The other half of the delegation has been suggested by former Governor B. E. Comer. Delegates from the state follow:

Delegates from state at large: Governor W. W. Brannon, Montgomery; Victor H. Hannon, Birmingham; Senator J. W. Sharp, Birmingham.

### WRITERS FAIL TO SIGN NAMES.

It becomes necessary every few days for us to throw to the waste basket some letters that are sent in for publication because the writers have failed to sign their names. This week we have two such letters. One does not show from what community it was sent from. Because a writer sends in a letter this week and then next week sends in another, is no reason why we should know that the last letter came from the same writer. It is only a moment's trouble for writers to sign their names, and we do not publish their communications unless they are signed.

Then some writers run all their items in together in one sentence, and sometimes make two pages are written without a paragraph. This is quite a bit of trouble for the force, and we must ask that all writers in the future make a separate item of every subject. When writing about one visitor make one paragraph about him. Then start on another line when you write of some other visitor or some other subject. We are receiving quite a number of good letters every week now, and we appreciate these and we feel sure that readers all over the county enjoy them also. We merely make these statements occasionally because some writer wastes some perfectly good paper as well as a stamp in sending in a letter without signing it.

Miss Marie Ham returned to Elba the first of last week from Geneva where she visited Miss Eloise Ham.

The many friends of Miss Hattie Mae Thomas are glad to know that she is steadily improving after a serious illness of the mumps.

SENDS CLIPPER BIG TURN-UP.

Mr. H. E. Edkins, Elba Rd. 5, sent to The Clipper office last Saturday the finest turnip we have seen this year.

The turnip, with all the top trimmed off, weighed 9 pounds. Two roots had grown together in making the turnip the large size that it is. According to the sample Mr. Edkins has a fine turnip patch.

Miss Marie Ham returned to Elba the first of last week from Geneva where she visited Miss Eloise Ham.

The many friends of Miss Hattie Mae Thomas are glad to know that she is steadily improving after a serious illness of the mumps.

### WITH ELBA CHURCHES

**BAPTIST CHURCH.**  
Preaching 11.00, a. m. and 8:00 p. m. by Chas. H. Germon Pastor.  
Sunday School 9.45 a. m. J. C. Fleming, Superintendent.

**METHODIST CHURCH**  
Preaching every Sunday, at 11:00 A. M. and 8:00 P. M. F. M. Lowrey, Pastor.  
Sunday School at 9:45 a. m. Chas. L. Rowe, Supt.  
Epworth League, Sunday evening at 7:30 o'clock.  
Prayer Service, Wednesday evening at 8:00 o'clock.

If company comes next Sunday, try to be as aggressive in your Christianity as they are in their paganism. Perhaps the Lord has delivered them into your hand that you may bring them to church.

If the church contained nothing but saints there would be no room for the most of us, but since it was established for sinners, let all be in our place next time. The pastor will fill the pulpit, and he asks you to fill the pews.

When the little boy was asked why he did not go to school, he replied that the reason was he could not do any good there because he could not read, write, or anything. How like grown-ups? They do not go to church, or pray, or study the Sunday-school lesson because they do not know anything about it.

We are glad to enroll on our membership Mr. and Mrs. Leon K. Pulliam, of Pensacola, and extend them all the privileges of our church. Mr. Pulliam is in charge of the ice factory and cold storage plant. He is using the same kind of ice machinery they use in breweries. Don't rush—take your time!

The regular services will be held at the 11 o'clock hour Sunday, but at night we shall dismiss for the revival at the Christian church. There will be preaching at the church in the J. S. Windham community at 8 P. M.

Prof. L. C. Kersh has consented to teach a training class at Liberty in July, and we hope every teacher will secure a book and rally to the good leadership of the superintendent, O. C. Smith, who is having a fine school in Liberty church.

The Sunday School Day program will be held at 9 o'clock hour in Elba next Sunday. We hope every member of the church will be present. The children render this program.

Keep in mind the Culppepper meeting to be held July 6. Leave your coat at home during the last days, and attend all services.

**CHURCH OF CHRIST**  
Bible Study, 9:45 A. M.  
Prayer Meeting Wednesday nights of each week.  
Ladies meet every Tuesday Afternoon 3:30 o'clock.

**LIGHTNING KILLS TWO**  
Charleston, W. Va., June 8.—S. B. Avis, former congressman from West Virginia, and R. G. Altizer, vice-president and general counsel of the United Fuel Gas company, both of Charleston, were instantly killed today when lightning struck a summer house at Edgewood Country club in which they had taken refuge during a storm. The house was overturned by the shock.

**MASKED MEN GET NEGRO**  
Jacksonville, Fla., June 9.—Ten robed and masked men tonight locked Owen C. Wingate, town marshal of Pablo, in the jail at that place, seized him of his keys and released him, serving a sentence for an alleged attack on a white woman, the marshal reported to county authorities in Jacksonville.

**PLOWMAN IN FIELD UN-EARTH'S NEST OF FORT-LARGE SNAKES**  
Jackson, Tenn., 40 snakes averaging seven pounds in weight each, were unearthed in a liberation bed on the farm of W. S. Saunders, five miles north of Humboldt. Two plowmen in the field killed 19 of the reptiles and then called for help. Reinforced by several men the dug deeper and found 21 more cotton mouths in an underground pit measuring 8 by 5 feet. All of the snakes were killed.

### AUTO WRECK VICTIMS RESTING VERY WELL; INJURIES ARE SERIOUS

The many friends throughout the county of Tax Collector Jack D. Lee and Mr. D. D. Knight, will regret to learn that their injuries received in an automobile wreck on last Tuesday night, are of a more serious nature than was at first expected.

Mr. Lee was carried to a Dothan hospital where an X-ray examination revealed some broken bones in his hip, and it will be necessary for him to remain in the hospital for six or eight weeks. However, reports from his bedside are that he is resting well and unless some complications develop, he will get along alright.

Mr. Knight who received a broken collar bone, and was otherwise bruised, has been suffering a great deal, but it is hoped that he may soon be on his feet and to recovery.

Their many friends trust that they will continue to improve and soon be well again.

### MARRIAGE OF MISS ARMOR AND MR. MORROW

A marriage that came as quite a surprise to their many friends was that of Miss Mary Francis Armour and Mr. George Morrow which occurred on Wednesday evening, June 11th at the home of the bride's parents, Mr. and Mrs. John H. Armour.

Construction work which includes what is known as the Cherokee Bluffs dam will be completed within three years. A permit for the dams was granted by the federal power commission last week. Six dams with the upper and lower Tallapoosa projects now owned by the Alabama Power company will provide a total of 150,000 horse power on the Tallapoosa.

Work has been in progress for a year on Cherokee Bluffs dam, which is one of the biggest power projects in the country. The 150 foot dam will back the Tallapoosa into a lake having an area of 39,200 acres.

**MAN CAPTURES BIG RAT-TLE**  
Troy Herald says: Tom Coffield, farmer of Moss Grove community, was in Troy Tuesday morning for treatment, having been bitten on the right ankle early Monday morning by a rattlesnake while working near his home.

Within forty minutes after the snake bit Mr. Coffield he was in Troy for treatment by Dr. Watkins, who used the new "snake serum" and upon returning home found the snake near his home and placed it in a screen covered box and brought it to Troy where it attracted considerable attention.

Mr. Coffield is suffering only slightly from the effects of the bite, and according to his physician, should suffer no further inconvenience.

It has been found that the actual work of the "snake" is performed in about half a day.

### ELBA BAKERY DAMAGED BY FIRE AND WATER TUES. NIGHT

The Elba Bakery, located in the stone building on the East side of Court Square was badly damaged by fire, smoke and water on Tuesday night about 11:30 o'clock.

The flames were discovered before much headway was gained and the firemen had a stream of water in the building before the fire broke through the roof. However the stock of goods as well as the machinery and fixtures in the building were badly damaged by smoke and water.

It is not known just how the fire started. Mr. George Boutwell, who had been baking some bread and cakes had only been gone from the place a short time, and it is supposed that the flames started from the fire in the oven.

Condemning the property of Mr. J. W. Blocker and it is understood that it as well as the stock of goods and machinery of the bakery, was insured.

### MRS. RUSS ENTERTAINS FOR MISS TALBOT

Miss Mary Ella Talbot was the inspiration of a lovely affair on Friday evening, when Mrs. M. C. Russ entertained with a theatre and slumber party.

At twilight a most tempting luncheon was served picnic style on the lawn, at the Russ home. The guests were: Mr. and Mrs. Dudley Barnard, Mr. and Mrs. Harris Murphree, Mr. and Mrs. Smart, Misses Talbot, Solie and Madge Page, Gussie and Kate Rainer, Margaret and Jennie Garrett, Jimmie Horn, Louise Leibart, Mabel Brunson, Lottie Harper and Lurline Ham.

After lunch the party was invited to the Strand Theatre where they enjoyed a splendid picture. Later in the evening the young ladies returned to Mrs. Russ' home and enjoyed themselves in a way that was a delight to them all. In the "wee small hours" did they slumber.

### MRS. WRIGHT ENTERTAINS FOR MISS HUTCHISON

Mrs. Vardie Wright entertained with a picnic, honoring Miss Francis Hutchison, of Enterprise, on Friday of last week at the Hutchison swimming pool at New Brockton. This is a lovely spot and ideal for outdoor entertainments. At the noon hour a delicious luncheon was served. The afternoon was spent in swimming and a good time generally.

### THE COUNTY AGENT AND FARM BUREAU

A number of farmers have informed me lately that they had a few Irish potatoes for sale, but not sufficient in quantity to ship a car. My suggestion to you who have these potatoes for sale is to spread them out in some cool dark barn, shed, or vacant building and keep till later in the summer when the retail trade, which offers the best price obtainable, can consume them at a fair price. Potatoes are easily kept in this manner, and should you have a considerable quantity, and only a small storage space, you can construct a series of false floors, three feet above one another. The prime requirement is to have the storage place dark, cool and plenty of circulation of air to circulate freely. By gradually marketing these potatoes, I am sure that you will realize a satisfactory price for your surplus. Notify this office of any surplus, and I am sure we can assist you in disposing of them.

### THE BOLL WEEVIL Situation in Coffee.

The cotton plants are late about fruiting this year, and one is liable to think that the boll weevil has not yet begun to do much damage. The absence of many weevils there are more weevils than you think, and as soon as the plants begin to square freely, then brother Billy will descend on your cotton like a thousand brick and demolish a fine prospect to pay off the farm mortgage this fall. While there is yet time to kill him, we should certainly be diligent. The pre-square application of poison has already been applied to some cases, and from now on it will be necessary to dust heavily to control the pests. Mr. Jeff Donaldson told the writers suggestion of poisoning the weevils while in the bud, or before the squares were forming. Last week, Mr. Donaldson took one of Mr. Sessions' boll weevil machines and cut the weevils with and ran over a few rows of cotton that had never been poisoned. He reported 13 weevils caught. Then he went down to the farm where he had shot the poison dust in the bud of the cotton some three weeks ago and again run his machine over a few rows. He failed to catch a single weevil in the poisoned cotton. We are ready to show you how best to apply the poison and will come to your place anytime. It will not pay however to poison unless you have a prospect for a half bale per acre.

### W. M. S. GIVES SHOWER FOR MRS. PAYNE

The home of Mrs. H. C. Johnson was the scene of a pretty affair on Tuesday afternoon, when the W. M. S. of the Methodist Church entertained with a miscellaneous shower honoring Mrs. Henry Payne, who was so unfortunate as to lose her entire household effects by fire.

Mrs. Johnson greeted the guests at the door and conducted them to the dining room where punch was served from a prettily decorated table by Mrs. Sam Blue with Mesdames Garrett and Marley assisting. After assembling in the living room the following program was given:

Piano Solo—Lucy Sanders. Duet—Daffin Lowrey and Nan Marley.

Trios—Misses Marley, Byrd and Payne.

Vocal Solo—Daffin Lowrey. At conclusion of the program Mrs. Payne was asked to find the pot of gold at foot of rainbow. After a long search there was truly a pot of gold in the many beautiful and practical things found.

C. R. Larkins, Ph. M. Sec. U. S. N., who has been stationed at the Naval Hospital, Charleston, S. C., for the past year, has left to go aboard the U. S. Battleship Utah, which is in Boston, Mass., at the present time. In a letter he says, "I will return to the garden spot of the world, dear old Elba, in a few days. I have made and learned to love so many friends during the past year."

### BAAPTIST EXECUTIVE COMMITTEE WILL MEET AT NEW BROCKTON.

## Liberty News

Mrs. E. S. Tucker was called to the bedside of her daughter, Mrs. P. V. Taylor in Bonifay, Fla., who is sick.

Mr. and Mrs. W. P. Foley came to spend the week-end with the latter's parents, Mrs. Foley was taken quite sick Saturday. Glad to say she is better now.

Mr. Meadows has a very sick child.

Mrs. Hattie (Smith) Wesley of Bessemer, who has been visiting her parents, Mr. and Mrs. T. M. Smith, left Monday for her home.

Mr. and Mrs. Tom Weed spent the day Sunday with the latter's parents, Mr. and Mrs. T. M. Smith.

This has been a very pleasant day. You know the Massing said the Sabbath was made for man and not man for the Sabbath. I had the pleasure of going up to Mount Olive today. The people met early and sang awhile. Now it is a real treat to hear those people sing, and then to hear Brother C. O. Helms preach. I wish I could praise him as he should be, but I am not able but he is so grand and has such noble thoughts. Everyone enjoyed his sermons so much. After preaching Brother Helms came home with me for dinner and then went with me to Liberty to Sunday school. Now we have such a fine lot of girls and boys till it makes one feel good to look at them and think of the future. After the lesson and a few good songs, Brother Smith called on Brother Helms to give a talk. It was a real treat to hear that talk. Girls and boys seemed to enjoy it so much.

Just a word or two about the crops. Some cotton is looking fine. The rice have nearly ruined some of it. The weevils are doing their part. You all know they have done more for cotton than any body, or any Farmers Alliance, for they took it at 3 cents per pound and carried it to 40 cents per pound, but yet we will not make any cotton. The early cotton is blooming.

Corn crop has a fine chance to make a good yield. All crops are doing very well. Why don't the farmer sow more oats just four farmers out here have oats. Every farmer ought to sow five or six acres. They are one of the finest feeds we have. Now let's get busy with this fall and sow some oats.

Now I notice the county agent is urging the farmers to get some cows ready for this fall so they can get cream. That will be good, but I believe that there are half of the children in our county that do not have milk and butter. I think that every one that has not got a cow should get one. Good luck to all.

H. I. Boland.

## Damascus Items.

We are very glad to say that the farmers are having some nice weather and plenty of hot sunshine to kill all of their grass.

The crops are all looking fine. Most everybody is laid by their corn and are putting all their time on cotton and peanuts. There are more peanuts planted this year than has been in quite a number of years. The farmers are looking for a good price for their cotton this year and we truly hope they will get it.

Let's quit farming now and talk of our revival meetings in July. Everybody is invited to our meetings. The second week at Goodman and Mt. Gilead fourth at Damascus.

Do not forget the "all day" sing at Bradshaw on the 15th of July. Everybody come and bring a well filled bag.

If there is some one you haven't seen in a good while and you wish to see them just go and find out where they are.

Sister A. Grooms was with us at Mt. Gilead Sunday and you may be sure we were proud of her presence. We think she is a good christian and wish we had more like her.

Listen, boys and girls, men and women.—When our papers have been rolled over and we can find nothing new to read do you wish to find something new? The Bible; The Bible is the new news. I am sure you do not know it all.

Brethren and sisters, when you go to church every Sunday and leave your boys and girls at home, how long do they stay there? Where do they go? The little boy takes his sling-shot and his books and some ball and goes to the creek or course. He fishes, hunts birds kills snakes and does his own way when by all means he should be at church. Now next Sunday when the children church lets get the children on the streets and high ways, "liver riding," how do you think that sounds? It is all truth, I am young myself and love pleasure, but when it is time to go to church I'm mostly there. I have a dress, I have a dress or my hat or slippers as well as good or don't look as well as so and so's. No! No!

Cream soups are made by combining milk with vegetable pulps, Custards, corn starch, junket, and cereal puddings are delicious summer desserts.

Miss Sonnday emphasizes the importance of proper care of milk during the summer. She suggests that buttermilk be used for drinking, while sweet milk is used for cooking.

In suggesting methods for using more milk Miss Dora Sonnday, Nutrition Specialist for the Extension Service, said that plain milk is a fine beverage and that it makes a especially appetizing drink when a syrup is combined with it. A delicious syrup is made from 1/2 cup of cocoa, 1/2 cup sugar, and 1 1/2 cups of water. The mixture should be cooked until the mixture is thick. One teaspoonful of this syrup with a cup of sweet milk makes a splendid drink for children.

Huntville, Ala., June 15.—Attempting to prove that his faith as a "Holy Roller" would make him immune to a rattlesnake bite may cost Buddy Simmons, a tenant on the farm of W. T. Vann, near Hobbs Island, his life. At a holy roller meeting a night or two ago, Simmons declared his faith in immunity from rattlesnake bite and from some unknown place a rattler was produced. Simmons made good with his boast so far as he was personally concerned and the rattler bit him twice on the fingers.

Since then his arm has swelled and may have to be amputated to save his life, physicians say. Another man in the crowd fared better than Simmons. He picked up the reptile and handled it at will and was not bitten, but it was claimed that he was pretty well saturated with wildcat liquor—so much so that no fastidious snake would care to bite him.

## Use of More Milk Is Recommended

There are many ways by which the consumption of milk can be increased. It can be easily used in numerous ways and its high food content renders an increase of special consideration at present.
